## Profile

I am an enthusiastic Backend Developer with two years of experience in self-guided projects. My passion for tackling complex problems has enhanced my ability to collaborate effectively in a team and learn new technologies. I am dedicated to problem-solving and continuously expanding my skill set to become a versatile professional.

## Experience

- **Freelancer** Apr 2021- Jan 2023
  - As a freelancer over the past 2 years, I've developed high-performance web applications and APIs, initially with Laravel and later with Node.js, focusing on clean architecture and efficient design.
- **Internship - Babol Noshirvani University of Technology** Jan 2023- Mar 2023
  - Contributed as a backend programmer within a team for a startup project, focusing on Node.js and Docker
  - Developed a buyer's request management system and implemented geolocation features for locating the nearest car spare parts
- **Teaching Assistant - Babol Noshirvani University of Technology** Apr 2021- Jan 2021
  - Instructed students on fundamental networking concepts, protocols, and technologies, including TCP/IP, DNS, DHCP, VLANs, and routing protocols
  - Provided practical guidance on network simulation tools such as Cisco Packet Tracer and Wireshark

## Projects

### Store Locator

The system lets parts buyers request parts from stores, receive inventory responses, track these, view store locations on a map, and see the shortest route to the store.

( Node.js, Express, Docker, Geolocation API, Socket.io, PostgreSQL, Redis ) [visit](#)

### Ecommerce

implementing Multilingual, order tracking, inventory management, role management, discounts, payment gateway, wishlist, shopping cart, user, admin panel.

( Laravel, Tailwind, Livewire, MySQL, jQuery ) [github](#)

## Education

- **Babol Noshirvani University of Technology** September 2020 - September 2024

Bachelor's degree, Computer Software Engineering  
GPA: 3/4

## Skills

- JavaScript
- Node.js(Express)
- REST API
- SQL(PostgreSQL,MySQL) & NoSQL(redis)
- Docker
- Agile Scrum
- Linux(File System, bash script)
- Tailwind Css
- familiar with Vue.js
- Prior Stack: Laravel
